DIARY NOTES

DD/S

6 April 1965

1. Matt Baird telephoned to say that [REDACTED] of the Office of Personnel had been nominated to replace [REDACTED] on the Career Trainee Selection Staff. Although Matt thinks well of [REDACTED], he would prefer a DD/S careerist who has had overseas service. I told him that we would consider other candidates for this position but that he can assume I have no objection to [REDACTED] if he does not hear from me to the contrary by the end of the week.

2. I met with Emmett Echols, [REDACTED] John Clarke, and [REDACTED] [REDACTED] about our supergrade and Scientific Pay Schedule problems. This meeting certainly confirmed that, not only has BPAM done nothing about this problem with the Bureau of the Budget, they really don't know the facts. I asked Emmett to draft as a matter of high priority a staff study making specific recommendations about the posture the Agency should take both internally and with the Bureau on this problem.
